Game feedback API

Using Talo's Feedback service, you can effortlessly collect valuable player feedback to improve your game's experience. Players can send feedback directly from within the game, providing insights that can help you understand their needs and preferences better.

Learn more about feedback here.

Endpoints

Get available feedback categories

`read:gameFeedback`

`GET` `https://api.trytalo.com/v1/game-feedback/categories`

Headers

None available

Route params

None available

Query keys

None available

Sample response Hide

```
{
  "feedbackCategories": [
    {
      "id": 1,
      "internalName": "bugs",
```

```
      "name": "Bugs",
      "description": "Issues that hinder the player experience",
      "createdAt": "2024-06-01T21:36:02.008Z"
    }
  ]
}
```

Create a player feedback entry

`write:gameFeedback`

POST `https://api.trytalo.com/v1/game-feedback/categories/:internalName`

Headers
