Responses

Players

Identification successful

If the player is successfully identified, this response will be sent.

```
{
  "res": "v1.players.identify.success",
  "data": PlayerAlias
}
```

Authentication required	Scopes
Yes	None

Presence updated

This response is sent when a player's presence is updated.

```
{
  "res": "v1.players.presence.updated",
  "data": {
    "presence": PlayerPresence
    "onlineChanged": boolean
    "customStatusChanged": boolean
  }
}
```

Authentication required	Scopes
Yes	`read:players`

Channels

Receiving a message

If a player is subscribed to a channel where a message has been sent, they will receive this response.

```
{
  "res": "v1.channels.message",
  "data": {
    "channel": GameChannel
    "message": string
    "playerAlias": PlayerAlias
  }
}
```

Authentication required	Scopes
Yes	`read:gameChannels`

Joining a channel

When a player joins a channel, all channel members will be notified.

```
{
  "res": "v1.channels.player-joined",
  "data": {
    "channel": GameChannel
    "playerAlias": PlayerAlias
  }
}
```

Authentication required	Scopes
Yes	`read:gameChannels`

Leaving a channel

When a player leaves a channel, all channel members will be notified.

```
enum GameChannelLeavingReason {
  DEFAULT,
  TEMPORARY_MEMBERSHIP
}
```

```
{
  "res": "v1.channels.player-left",
  "data": {
    "channel": GameChannel
    "playerAlias": PlayerAlias,
    "meta": {
      "reason": GameChannelLeavingReason
    }
  }
}
```

Authentication required	Scopes
Yes	`read:gameChannels`

Ownership transferred

This response is sent to channel members when the owner is updated.

```
{
  "res": "v1.channels.ownership-transferred",
  "data": {
    "channel": GameChannel
    "newOwner": PlayerAlias
  }
}
```

Authentication required	Scopes
Yes	`read:gameChannels`

Channel deleted

When channels are deleted, all members will be notified.

```
{
  "res": "v1.channels.deleted",
  "data": {
    "channel": GameChannel
  }
}
```

Authentication required	Scopes
Yes	`read:gameChannels`

Channel updated

This response is sent to channel members when any of the channel's properties (including its name and props) are updated.

```
{
  "res": "v1.channels.updated",
  "data": {
    "channel": GameChannel
    "changedProperties": string[]
  }
}
```

Authentication required	Scopes
Yes	`read:gameChannels`

Channel storage updated

Channel members will receive this when storage props are created, updated or deleted.

```
{
  "res": "v1.channels.storage.updated",
  "data": {
    "channel": GameChannel
    "upsertedProps": GameChannelStorageProp[]
    "deletedProps": GameChannelStorageProp[]
  }
}
```

Authentication required	Scopes
Yes	`read:gameChannels`

Live config

Live config updated

This response is sent to all players when the live config is updated from the Talo dashboard.

```
{
  "res": "v1.live-config.updated",
  "data": {
    "config": Prop[]
  }
}
```

Authentication required	Scopes
Yes	`read:gameConfig`

Types

Prop

```
type Prop = {
  key: string
  value: string
}
```

Player

PlayerAlias

```
type PlayerAlias = {
  id: number
  service: string
  identifier: string
  player: Player
  lastSeenAt: Date
  createdAt: Date
  updatedAt: Date
}
```

PlayerPresence

```
type PlayerPresence = {
  online: boolean
  customStatus: string
  playerAlias: PlayerAlias
  updatedAt: Date
}
```

```
    id: number
    name: string
  }[]
```
